The press, the pulpit and the iscture-room are alient on the subject of diseases of the sexual organism. A hise ficilizary conceals the knowledge for which thousands thirst.

And how terrible are those diseases? Epermatorrhose, shattering the entire Nervous System—impairing the mind—and causing self-destruction. Syphilis, eating up the body by pieces-meal owing bone, muscle and nerve, by inches—being literally exten up alive, and forturing the brain with agony. Chariatans, or incompetent physicians may essay to cure them, but in vain. The only hope and resort is in the humane and learned physician who understands their case.

Among these affections, none are worse than Spermatorrhose, or Seminal Weakness, and emissions. Dr. Woodbridge says, "That the loss of one onnee of applical fulld by abuse, is equal to the loss of forty ounces of
